

Logging Project - Feature #33299

Automatic class name to logger key resolution

2012-01-18 18:47 - Ingo Renner

Status:	Resolved	Start date:	2012-01-18
Priority:	Must have	Due date:	
Assignee:	Ingo Renner	% Done:	0%
Category:		Estimated time:	0.00 hour
Target version:		Spent time:	0.00 hour
Description			
<p>When retrieving a logger through the factory it should be possible to either retrieve it using a class name or a concrete "namespaced" name.</p> <p>Internally the loggers are always managed by key. Thus the class name should automatically converted to namespace notation:</p> <p>example:</p> <pre>t3lib_cache_backend_DbBackend -> t3lib.cache.backend.DbBackend</pre>
