

TYPO3 Core - Bug #33392

showHidden flag in tslib_fe is not "workspaces aware"

2012-01-23 18:13 - Bart Dubelaar

Description In tslib_fe the flag \$this->showHiddenPage is set to true whenever the requested uid is a hidden page. However this code always looks at the original uid and not to the versioned overlay. When working with workspaces and adding new pages in draft, all placeholders have hidden set to 1. This means that showHiddenPage will always become true, and all hidden pages will be shown. This essentially breaks the rendering of menus etc., as all the menus will show all hidden pages too.

Revision 34eee3a3 - 2012-06-28 22:24 - Bart Dubelaar

[BUGFIX] Take versioned record into account for showHidden flag.

The flag showHiddenPage is set if the requested uid is a hidden page. The original code always looked at the original uid and not to version in the active workspace. This is fixed.

Revision 241e31dc - 2012-09-05 08:29 - Steffen Ritter

[BUGFIX] Take versioned record into account for showHidden flag.

FollowUp to issue #33392 in master - the merged condition in if always results to true --> every page is considered as workspace spage. This results in a broken preview

functionality for normal live pages.

Should be integrated in 4.7, 4.6 and 4.5 directly when backporting the original issue.

- Status changed from New to Accepted

This is indeed a problem that I can confirm (probably in all TYPO3 versions which have workspaces).

Probably not so easy to solve because this part of the code is very old (back from the beginnings from the workspaces, 2003-2004) and it's hard to change anything without having some side effects.

Thanks for your report so far, if you have any idea on how to solve it (if you have PHP knowledge), please go ahead.

#2 - 2012-01-23 20:06 - Ernesto Baschny

How to reproduce in the intro-package:

- 1) Hide any page in the navigation (in live mode)
- 2) Switch to some Workspace
- 3) Create more pages anywhere and "unhide" them (still in this Workspace)
- 4) Preview one of these new pages in the Frontend
- 5) The new pages added to the workspace now appear **but** also the hidden page from Live mode (hidden in 1) also wrongly appear (and you can actually even click and preview them!)

#3 - 2012-01-23 20:08 - Ernesto Baschny

Uncommenting class.tslib_fe.php line 793 (`$this->showHiddenPage = 1`) apparently makes it behave correctly, but I have no idea of the side effects of it. :)
