Target version:	1.0.3	Complexity:	
PHP Version:			
Has patch:	No		

Description

The Proxy Class replaces the class doc comment of the original class with

```
Autogenerated Proxy Class
```

.

Instead it should keep the comments of the source class.

[BUGFIX] Keep class doc comments when building proxies

Currently the doc comment of a class is replaced with "Autogenerated Proxy Class" when the proxy class is generated. This change fixes this and keeps the original doc comment.

That is particularly useful if you rely on the original comment when creating automatic class documentations.
