Description

In analogy to [#28087](#) I want to clean up the template class (typo3/template.php) this time. Clean phpDoc comments are important to make the API understandable to Users and IDEs.

So I made a patch doing mostly:

- Provide correct parameter names in phpDoc
- Provide correct data types in phpDoc
- CGLify phpDoc (remove tabs)
- CGLify method signatures (the first line of the method)
- Corrected a few minor very obvious flaws (" \$size = \$size;" was my favorite)

Note on green bar feeling: After the patch the class is not green yet, but it has improved a lot. I'd like to tackle a few more flaws when this obvious changes are through.
