History

#1 - 2012-03-11 22:02 - Jigal van Hemert

- Status changed from New to Needs Feedback

- Assignee set to Jigal van Hemert

According to PHP documentation [1] the 'glue' parameter became optional in 4.3.0; it's not needed if it's empty.

Have you encountered errors or other problems?

#2 - 2012-03-11 22:39 - Simon Schaufelberger

phpstorm does not like it and:

This is **not the preferred usage** of implode() as glue would be the second parameter and thus, **the bad prototype would be used**.

but there were no errors so far.

#3 - 2012-03-14 10:12 - Oliver Hader

- Status changed from Needs Feedback to Accepted

- Priority changed from Must have to Should have

- Target version set to 4.5.14
