Description	
In analogy to #28087 and #34629 I want to clean up the template class (typo3/template.php) this time. Clean phpDoc comments are important to make the API understandable to Users and IDEs.	
So I made a patch doing mostly:	
<ul style="list-style-type: none">• Provide correct parameter names in phpDoc• Provide correct data types in phpDoc• CGLify phpDoc (remove tabs)• CGLify method signatures (the first line of the method)
