

TYPO3.Fluid - Feature #3661

<f:form.checkbox and <f:form.radio missing?!

2009-06-14 00:56 - Marcel Rosenberger

Status:	Resolved	Start date:	2009-06-14

Target version:			
Has patch:			
Description			
It would be nice to have <f:form.checkbox and <f:form.radio available in a Fluid-Template. <input type="radio" name=...> is possible but one can't take advantage of arguments like options="{myarray}" and property="..." as possible with the <f:form.select ViewHelper.			

Associated revisions

Revision 35083ea4 - 2009-08-31 19:22 - Bastian Waidelich

[FEATURE] Fluid (ViewHelpers): Added checkbox and radio form viewHelpers. Resolves #3661
[FEATURE] Fluid (ViewHelpers): Added fieldNamePrefix to FormViewHelper as a preparation for namespaced forms. Relates to #3717
[TASK] Fluid (ViewHelpers): Tweaked and refactored FormViewHelper by splitting up the huge render() method into smaller chunks
[TASK] Fluid (ViewHelpers): Refactored form field viewHelpers by splitting AbstractFormViewHelper into AbstractFormViewHelper and AbstractFormFieldViewHelper
[TASK] Fluid (Tests): Streamlined some viewHelper tests and added mock request to ViewHelperBaseTestcase to ease creation of viewHelper unit tests
[TASK] Fluid (Tests): "Forwardported" a unit test from Jochen (in TemplateParserTest)

It's not intuitive, but technically I would say it's <f:form.select and there should be an option renderType=select|combobox|radio|checkbox

#2 - 2009-07-14 15:29 - Jochen Rau

- Status changed from New to Accepted
- Priority changed from Could have to Should have

#3 - 2009-07-22 10:35 - Bastian Waidelich

- Assignee set to Bastian Waidelich

#4 - 2009-07-31 12:07 - Bastian Waidelich

- Project changed from 534 to TYPO3.Fluid
- Category deleted (432)

#5 - 2009-07-31 12:18 - Bastian Waidelich

- File 3661.patch added
- Category set to ViewHelpers
- Branch set to v4 + v5

Attached is a patch that implements a simple checkbox & radio viewhelper.

Note:
Something like

```
<f:form.select renderType="checkbox" />
```

does not make sense until we have support for "template based" view helpers in my eyes because client A wants it to be:

```
<dl>
  <dt><label for="foo">Foo</label></dt>
  <dd><input type="checkbox" value="foo" name="foos[]" id="foo" /></dd>
  <dt><label for="bar">Bar</label></dt>
  <dd><input type="checkbox" value="bar" name="foos[]" id="bar" /></dd>
</dl>
```

and client B:

```
<ul>
  <li><label><input type="checkbox" value="foo" name="foos[]" id="foo" /> Foo</label></li>
  <li><label><input type="checkbox" value="bar" name="foos[]" id="bar" /> Bar</label></li>
</ul>
```

but we're working on a solution for that!

#6 - 2009-08-09 21:50 - Bastian Waidelich

- File 3661_tx_fluid_checkbox_and_radio_viewhelpers.patch added
- File 3661_Fluid_checkbox_and_radio_viewhelpers.patch added

Attached is a patch that implements a simple checkbox/radio viewhelper. Once for Fluid (package) and once for tx_fluid (extension). This will be committed to trunk after release of FLOW3 1.0.0 alpha3.

#7 - 2009-08-31 20:01 - Bastian Waidelich

- Status changed from Accepted to Resolved
- % Done changed from 0 to 100

Applied in changeset r3109.
