

## TYPO3.Flow - Bug #36859

### URLs Break if the Route return a URI with Query string

2012-05-05 11:48 - Marc Neuhaus

<b>Target version:</b>	<b>Complexity:</b>
<b>PHP Version:</b>	
<b>Has patch:</b> Yes	
<b>Description</b> In cases where the Route returns an URI with a Query String attached the URI Builder adds a second ? to append the query string. In my case this happens through the BackendModuleArgumentsRoutePartHandler which already adds a query string.  I've attached a patch to check the matchingUri for a ? to append the query with a ? or & depending on that check.	
<b>Related issues:</b> Is duplicate of TYPO3.Flow - Bug #33519: Route always appends a question mark... <b>Resolved</b> 2012-01-29
