Description	
If you have login form on page with url like this: index.php?id=10&L=3&tx_someext[@widget_0][currentPage]=3	
Action url of login form will point to: index.php?id=10&L=3&tx_someext[@widget_0]=Array	
The problem is in method tx_felogin_pi1->getPreserveGetVars() (called from getPageLink()). This method assumes that no nested arrays are passed as parameter.	
<pre>\$params .= '&' . \$key . '[' . \$key1 . ']=' . \$vall;</pre>

Associated revisions

Revision a0f4d13c - 2012-11-15 11:44 - Jigal van Hemert

[BUGFIX] EXT:felogin: Multiple bugs with preserveGETvars

Refactor and fix handling of preserveGETvars in felogin. * Add support for multi dimensional arrays * urlencode() values * Preserve only parameters defined in 'preserveGETvars'

The patch adds a new ArrayUtility method to handle recursive array intersections. See the unit tests for details.

Change-Id: I90e2f8eb79586369a9c15c7ef19f7658b1d65ed3

Fixes: #19938

Fixes: #23324

Fixes: #23649

Fixes: #36894

Fixes: #38589

Releases: 6.0, 4.7

History

#1 - 2012-05-23 16:30 - Horst Prote

- *File felogin.patch added*

I hit this and the related issue [#23324](#) some days ago.

Here's my patch for both.

#2 - 2012-05-23 19:06 - Markus Klein

Thank you Horst.
Would you mind pushing your patch to gerrit?

If you need more information on this, have a look at:
http://wiki.typo3.org/Contribution_Walkthrough_Tutorials

I read the tutorial and think it's too complicated for me doing a quick "pushing the patch" besides my normal work. Maybe I'll find the time in one or two weeks. But I don't mind if anybody else pushes my patch to gerrit.

By the way my first patch generated a Log entry each time

```
$var[0]
```

runs empty. Here's the updated patch.
