Target version:			

Description

The extension does not work under TYPO3 4.7 because of a call to t3lib_div::makeInstanceClassName() in class.tx_pmkisac_autocomplete.php on line 60:

```
$temp_TSFEclassName = t3lib_div::makeInstanceClassName('t3lib_fe');
```

The function used to be deprecated and now does not exist anymore.

Changing the line like this fixes the problem:

```
$temp_TSFEclassName = t3lib_div::makeInstance('t3lib_fe');
```

- Assignee set to Peter Klein

I had the same problem in TYPO3 version 4.6.4, seems that the problem still exists, so i wrote a patch to fix it.
