

TYPO3.Flow - Task #3755

Concurrency stress testing and cache mechanism

2009-06-25 09:36 - Robert Lemke

Status: New	Start date: 2009-06-25
Priority: Must have	Due date:
Assignee:	% Done: 0%
Category: - Testing -	Estimated time: 0.00 hour
Target version:	Has patch:
Sprint:	Complexity:
PHP Version:	
Description After the first experiences and results from #3582 we need to do some more thorough stress testing to identify race conditions in FLOW3, especially in the caching mechanism. We need to assure that especially the code caches cannot be built multiple times simultaneously which currently is seems to be not always the case.
