Description

The toolbar items in the sys_actions toolbar doesn't go to the right submodule in the "Task center" module - unless the last chosen submodule was "Tasks".

This patch add the "mode" setting, so the right submodule is chosen

How to test:

1. Open "Task Center"
2. Choose "Overview" as submodule
3. Click a created sys_action from the toolbar
4. You are still seeing the overview page

Apply patch and do the same again, you are now redirected to the actual task
