

## TYPO3 Core - Bug #37938

### Using HTML5 for audio not (easily) possible due to flexform

2012-06-12 00:29 - Stefan Neufeind

#### Description

In typo3/sysex/cms/flexform\_media.xml the checkbox to use "HTML5/accessible rendering" is only shown if the Media-type is video. It is hidden for audio through a displayCond in flexform.

But that checkbox is needed for HTML5-audio as well. Unfortunately that displayCond can not just be removed since another tab is also triggered by this checkbox:

```
<TCEforms>
<sheetTitle>LLL:EXT:cms/locallang_ttc.xml:media.tabVideoAccessible</sheetTitle>
<displayCond>FIELD:sGeneral.mmUseHTML5:=:1</displayCond>
</TCEforms>
```

And displayCond does not allow to have two conditions / one condition of two parts (type=video and mmUseHTML5) here.

Workaround is to use use type=video, check the checkbox and after that change to type=audio. That value is then still present in flexform.

Tested this on latest 4.7.2-dev from git.

PS: CCing Steffen Ritter on this since that condition was introduced by his changeset.

commit 37d6509eff1e9d4eeb2b8e3915061b0a3c935fb9

[BUGFIX] Usability improvements for Media Element

Final adaptations to the Media Element to reduce the UI to the necessary stuff and better distinguish between HTML5 and normal rendering.

#### History

##### #1 - 2015-01-12 20:52 - Frans Saris

- Target version set to 7.2 (Frontend)

- Is Regression set to No

##### #2 - 2015-06-15 17:44 - Benni Mack

- Target version changed from 7.2 (Frontend) to 7.4 (Backend)

**#3 - 2015-08-05 10:29 - Susanne Moog**

- Target version changed from 7.4 (Backend) to 7.5

**#4 - 2015-09-24 15:22 - Riccardo De Contardi**

- Status changed from New to Closed

I close this because the mediace extension will soon be removed from core, without backporting.

If you think that this is the wrong decision, then please write to the mailing list [typo3.teams.bugs](mailto:typo3.teams.bugs) with issue number and an explanation or open a new ticket and add a relation to this ticket number.

**#5 - 2015-09-24 15:48 - Stefan Neufeind**

If EXT:mediace would become non-core, I expect it will get a separate forge-project then and people responsible for it? If so, shouldn't the issue be moved over to there instead, since it's still valid?
