Task # 38984 (Closed): Code Review

TYPO3 Extension Review

2012-07-16 13:18 - Tizian Schmidlin

Status:	Closed	Start date:	2012-07-16
Priority:	Must have	Due date:	
Assignee:	Ivan no-lastname-given	% Done:	100%
Category:	TYPO3 4.x	Estimated time:	5.00 hours
Target version:		Spent time:	4.00 hours
Description			
TYPO3 Extension review: - class.tx_phoenixlogin_call.php			
Bemerkungen im code und hier vermerken.			

History

#1 - 2012-07-16 14:53 - Tizian Schmidlin

- Category set to TYPO3 4.x
- Assignee set to Ivan no-lastname-given

#2 - 2012-07-17 15:08 - Ivan no-lastname-given

Bemerkungen sind ebenfalls im Code vorhanden. Bitte entfernen, wenn behoben:

- I'm not an expert on cryptography, but since you're using a deterministic pseudorandom number generator the password may be predictable. But for our purposes this should not be a problem.
- It would be more readable if you would call userExists above the if statement, and check with the === operator if the method has returned false. Or use brackets like this - > !(\$this->user = \$this->userExists())
- Why are the methods userExists() and generateRandomPassword() public? If they're not needed outside this class, make them private
- Remove all comments that are not needed like the one below
`//print_r(base64_decode($_GET['encrypted']));die();`

#3 - 2012-07-17 15:09 - Ivan no-lastname-given

- Status changed from New to Closed

#4 - 2012-07-17 16:42 - Tizian Schmidlin

- % Done changed from 0 to 100
