

Clear TYPO3-cache - Bug #39386

Incompatible with 6.0

2012-07-30 16:06 - Steffen Müller

Status:	New	Start date:	2012-07-30
Priority:	Should have	Due date:	
Assignee:		% Done:	100%

Target version:		Has patch:	No
TYPO3 Version:	6.0	Reporter:	
PHP Version:			
Patch is reviewed:	No		

Description

"This extension does not work at all with 6.0.

It uses ``\$TYPO3_CONF_VARS`` instead of ``\$GLOBALS['TYPO3_CONF_VARS']`` and also removes the extension key by calling ``global \$_EXTKEY``.

The whole cli code fails for 6.0 because it looks like it does not use the CLI like it should."

Hi cleartypo3cache-Team,

I have patched the current version from TER/forge for use in TYPO3 up to 6.0 (included the use for 6.2 LTS). The patch was tested in the current 6.2 beta environment.

Regards

Simon
