Description	
When the option "Sort alphabetically" in TypoScript Object Browser is selected it only works with the onclick handler. The value is missing in input box.

[BUGFIX] No sorting in TypoScript Object Browser when browsing

If you enable "Sort alphabetically" the correct value (1) is submitted to extension settings. But when you use any other functionality of the page (e.g. setting some conditions or use search filter) the value is set to "on" which disables the sorting.
