

TYPO3 Core - Feature #39729

Bug # 36744 (Accepted): Workspaces are unusable on larger installations

Allow to disable Extbase TypoScript parsing in backend

2012-08-12 15:39 - Oliver Hader

Status: Rejected	Start date: 2012-08-12
Priority: Should have	Due date:
Assignee: Oliver Hader	% Done: 0%
Category: Workspaces	Estimated time: 0.00 hour
Target version:	Complexity:
PHP Version:	Sprint Focus:
Tags:	
Description This is basically related to Extbase and the fact that the frontend TypoScript is loaded and parsed for each dispatching acting for backend modules. In case the frontend TypoScript does not have any valuable information on dependency injection nor on persistence settings, the parsing part could be skipped completely by an according configuration.
