[TASK] Add all ContentType definitions

This package will house all TYPO3 Phoenix ContentType definitions. So all default Node ContentTypes in Phoenix will be in the namespace TYPO3.Phoenix.ContentTypes.

[!!!][TASK] Move ContentTypes to TYPO3.Phoenix.ContentTypes

Default Content types are now maintained in a seperate package.

This is a breaking change. All existing nodes must be changed to the new namespace and also all ContentType definitions in sites must inherit from the content types in TYPO3.Phoenix.ContentTypes now. Affects plugins as well.
