Description			
See attached file, too.			
When adding a content of type media (mp3 and ogg) AUDIO-Tag in HTML5 works fine but the flash player fallback in IE 8 and IE 7 fails (Error inside player: File not found).			
In a forum thread I found 2 other guys describing identical error.			
Typo3 versions 4.7.4 and 6.0beta2.

Maybe bug [#38460](#) is a duplicate of this bug? Same symptoms, but for VIDEO media.
