

TYPO3.Flow - Bug #41496

Upload identical Resources, deleting fails

2012-10-01 17:57 - Martin Ebeling

PHP Version:			
Has patch:	No		

Description

If you have models where you can attach/upload Resources the deletion will fail.

Due to a Foreign key constraint in `typo3_flow3_resource_resource` the resourcepointer is inserted multiple times.

When you try to delete the model the resourcepointer can not be deleted because its still available in the resource table due to the connection of the same hash to the `typo3_flow3_resource_resource`.

My Idea for fixing it adding the system time to the hash.
