You can have a look at the Planetflow3 package (<https://github.com/chlu/Planetflow3-Package/>) for that. I used SimplePie, which works quite well for consuming RSS / Atom streams.

SimplePie is also available as a Composer package: simplepie/simplepie.

<https://github.com/kitsunet/Flowstarters.Plugin.FeedReader>

Need to clean that up and change the namespace after Flowstarters was deleted (who did that btw without saving the repositories?).
