Description

Hi,

This bug was first posted here: <http://lists.typo3.org/pipermail/typo3-english/2012-March/079796.html>

I have got the same on a 4.5.19.

In function `indexAction()`, in `typo3/sysext/workspaces/classes/controller/PreviewController.php`, labels are not escaped for 'visualPreview' 'modeHbox'.
Particularly, in french, the label for "workspacePreviewDetail" contains a single quote, resulting in a javascript bug.

These labels should go through `addInlineLanguageLabel` or equivalent from the class `t3lib_pageRenderer`.

I will try to submit a patch later.

[BUGFIX] Escape strings for JavaScript usage

The Preview Controller loads a number of strings in the JavaScript `TYPO3.lang` object. These strings must be properly escaped lest they create syntax errors when the string contains single quotes.
