Hi Visay,

Are you still having the same problem if you update the GIT master? I have tried it today (9 Dec 2012) and can verify that it works fine for me.

Can you verify the same result?

#### #2 - 2012-12-11 10:18 - Visay Keo

Hi Mattias,

I use the git master as of today's version (11/12/12) and I cannot reproduce the problem mentioned above.

So this is fine now and can be closed. Thank you for taking care of the issue.
