

TYPO3.Flow - Bug #43541

Incomplete classes path detection for PSR-0

2012-12-03 10:39 - Karsten Dambekalns

Status:	New	Start date:	2012-12-03
Priority:	Should have	Due date:	
Assignee:		% Done:	0%
Category:	Core	Estimated time:	0.00 hour
Target version:	2.0.1	Complexity:	
PHP Version:			
Has patch:	No		

Description

For the guzzle/guzzle package (as an example that uncovered this), our autoloading fails.

First symptom is the error Cannot redeclare class Zend_Log in .../Libraries/guzzle/guzzle/tests/Guzzle/Tests/Log/Zend_Log.php on line 30 which cannot be resolved using object.excludeClasses configuration. Indeed the PackageStates.php contains:

```
'guzzle.guzzle' =>
array (
  'manifestPath' => '',
  'state' => 'active',
  'packagePath' => 'Libraries/guzzle/guzzle/',
  'classesPath' => 'tests/',
),
```

Note the classesPath entry... this is probably caused by this part of Guzzle's composer manifest:

```
"autoload": {
  "psr-0": {
    "Guzzle\\Tests": "tests/",
    "Guzzle": "src/"
  }
},
```
