Description

Hi,

in every element there is an option to save and save/close.

It would be great to have the save button aswell and not only the save/close button, because when you need to change parameters you will have to reopen always the task after creating it and this costs time.

Thanks

Revision 357ce730 - 2013-01-23 21:01 - Lorenz Ulrich

[TASK] Add save only button to Scheduler task

Scheduler tasks currently miss a save only button. Since Firefox and
Opera don't send the value of an <input type="submit">, the save and
save & close buttons are wrapped in a <button type="submit"> to ensure
saving and saving & closing is cross-browser compatible.

[BUGFIX] Saving a scheduler task throws fatal error

The backport of commit:357ce730 for version 4.7 was applied to the
"update" code instead of the "save" code. This patch moves the change to
the right place.
