##### #4 - 2013-05-09 17:22 - Bastian Waidelich

FYI: I just added a test case for this View helper to the Viewhelptest package: <https://review.typo3.org/#/c/20671/>

##### #5 - 2013-08-17 11:23 - Robert Wildling

It does not seem to be resolved, unless I am misunderstanding something here.

The namespaces is wrong, if used with TYPO3 CMS 6: at the moment it is

```
namespace TYPO3\Fuild\ViewHelpers\Format;
```

but should be:

```
namespace TYPO3\CMS\Fuild\ViewHelpers\Format;
```

(with the "CMS\")

This is also true for the class definition.

Please correct me, if my comment here is in a wrong context. Thanks!

Can't find "CaseViewHelper.php" in "typo3\_src-6.2.0alpha2".

Please add the ViewHelper to V6.2.0.

Thank you!

Will this be part of TYPO3 6.2?

Robert, Michael and Bjoern: could you please, if any, open an issue at <http://forge.typo3.org/projects/typo3v4-fluid> and point to this one? This thread is for TYPO3 Flow's Fluid.

Thx for your reply. Created ticket [#58621](#). Since this is resolved in Fluid I change back done to 100%.
