

TYPO3.Flow - Bug #44765

Functional test broken

2013-01-23 23:18 - Michael Klapper

Status: Resolved	Start date: 2013-01-23
Priority: Should have	Due date:
Assignee: Karsten Dambekalns	% Done: 100%
Category: Security	Estimated time: 0.00 hour
Target version: 2.0	Complexity:
PHP Version:	
Has patch: No	

Description

If you run the functional tests, you'll get the following exception thrown.

```
TYPO3\Flow\Security\Exception: The security Context cannot be initialized yet. Please check if it can be initialized with $securityContext->canBeInitialized() before trying to do so.
```

This is a side effect of the following commit:

```
commit ce08c301e116f3e775657a977c3f1bc3ee4fcad3
Author: Sebastian Kurfuerst <sebastian@typo3.org>
Date: Thu Jan 17 17:57:44 2013 +0100

    [BUGFIX] The security context is only allowed to be initialized after routing took place
    ...

    This is a follow-up to issue #42601; where the according code has been
    implemented.

Revision 55a312f2 - 2013-01-28 14:43 - Karsten Dambekalns

[BUGFIX] Fix security-related functional test failures

The change I724c1b352dd1807ba53b1e336f2d90e90360ff4d introduced some test failures. This change takes care of the failing functional tests.

It does that by:

- changing the order in which security is set up in the FunctionalTestCase provided by Flow.
- setting the "current request" again after a call to clearContext() in ContentSecurityTest
- adjusting the expected exception in MethodSecurityTest in two places

Change-Id: I353e2cba11473cf9ddef82f96b6a79d9d6fefbba

Fixes: #44765
