```
$GLOBALS['TSFE']->sys_page = t3lib_div::makeInstance('t3lib_pageSelect');
```

Does not look right in BE context. \$GLOBLAS['TSFE'] is not set in BE.

I do not even see the use of this line.

You are absolutely right. This line doesn't make sense. I've deleted it.

You were absolutely wrong ^^
See [#46339](#) why ;-)
