[BUGFIX] initializeObject is no longer executed twice

In every session-scope object initializeObject() was called twice as soon as the session is started.
Now initializeObject() is only called once.

History

#1 - 2013-04-22 22:36 - Benno Weinzierl

After some more testing i noticed that this happens not only after authentication.
It happens with any session scope object when the session is started.
