

TYPO3.Flow - Feature #45675

Improve Error-Message when @var annotation in entity object is omitted

2013-02-20 21:02 - Benno Weinzierl

Status:	Resolved	Start date:	2013-02-20
Priority:	Should have	Due date:	
Assignee:	Benno Weinzierl	% Done:	0%
Category:	Validation	Estimated time:	0.00 hour
Target version:	2.0	Complexity:	
PHP Version:			
Has patch:	No		

Description

When the @var annotation is missing in an entity object the ValidationResolver throws a notice:

```
Notice: Undefined index: var in .../TYPO3_Flow_Validation_ValidatorResolver_Original.php line 251
```

This tells nothing about the actual problem (that the @var in the comment of a property was forgotten).

Improve this errormessage to make the search for the error more FLOWing :-)

History

#1 - 2013-02-20 21:08 - Gerrit Code Review

- Status changed from New to Under Review

Patch set 1 for branch **master** has been pushed to the review server.
