#### Description

The menu does not have a border, so the icons overlap with the content.  
The next level then shows correctly. (Okay, if it's too large for the page-tree it does not cross frame-borders - but that's okay.)

- Status changed from New to Needs Feedback
- Is Regression set to No

Still a problem?

I performed a test with TYPO3 4.5.34 and IE 9.0.8112.16421 on Windows 7 and the error seems absent (See attached screenshot); plus, version 4.5 is not under maintenance any longer.

If you think that this is the wrong decision or experience this issue again, then please write to the mailing list typo3.teams.bugs with issue number and an explanation or open a new ticket and add a relation to this ticket number.
