Description			
In the past download links set via RTE are stored in DB like this: <link fileadmin/user_upload/pdf/10Ratgeber%20%2B%20Anleitungen/file.pdf _blank download "Leitet Herunterladen der Datei ein">Download</link>			
When I edit the Content Element with the above mentioned link I get the attached Exception.			
In my eyes this issue is caused by the whitespaces in the foldername. Renaming the dir to "10Ratgeber_Anleitungen" and editing the path manually with phpmyadmin solves the problem.

History

#1 - 2013-03-04 12:04 - Henrik Ziegenhain

Maybe related to [#45490](#)

#2 - 2013-03-04 12:11 - Henrik Ziegenhain

The attached patch at [#45490](#) from Marc Bastian Heinrichs solves this issue.

#3 - 2013-03-05 00:51 - Michael Stucki

- Status changed from New to Resolved

As this seems to be a duplicate of [#45490](#), I am closing this issue.
