Description			
I am getting no context menu in filelist anymore in version 6.0.4. There is also no visible method to delete files or file folder? Is this the desired behavior? bye Martin

So do i.

#2 - 2013-03-11 09:29 - Stefan Galinski

- Status changed from New to Needs Feedback

- Target version deleted (6.0.5)

Where are you missing the context menu? Just tried it out in Google Chrome and the context menu appeared like it should on clicking the icon at the left in a row.

#3 - 2013-03-11 11:12 - Pascal Dürsteler

Same problem on 4.7.10. Firebug shows

```
"NetworkError: 500 Internal Server Error - http://localhost/t3demo/typo3/alt_clickmenu.php?table=%2Fvar%2Fwww%2Ft3demo%2Ffileadmin%2Ftemplates%2Findex.html&uid=&listFr=1&enDisItems=&backPath=..%2F..%2F..%2F%7C8017f9b225&addParams=&ajax=1"
```

Hi,

my problem was, I had installed a version 6.0.2 of government package and updated later to 6.0.4. In 6.0.2 there was a version of tt_news included, which has several fatal errors.

The problem was in filelist there was the above mentioned 500 error with alt_clickmenu.php. No error in backend. I just not looked in apache error file.

In

typo3conf/ext/tt_news/cm1/class.tx_tnewsatmanager_cm1.php line 274

typo3conf/ext/tt_news/pi/class.tx_tnews_wizicon.php line 85

In version 6.0.4 this error are fixed. But as I updated, the ext tt_news was not updated.

So for me it is no problem left.

@Pascal: perhaps it is also a fatal error for some extension in your installation? Is there are error in your apache error log?

bye
Martin

- Status changed from Needs Feedback to Closed

Pascal's error is not related to FAL (not on 4.7), so I'm closing this issue for now, as the FAL issue has apparently been fixed.
