Description

If suhosin is not used, it should be shown only once.

History

#1 - 2013-03-22 14:17 - Gerrit Code Review

- Status changed from Accepted to Under Review

Patch set 1 for branch **master** has been pushed to the review server.

It is available at <https://review.typo3.org/19178>

#2 - 2013-12-02 17:34 - Andrea Schmuttermair

With PHP 5.4, Suhosin is no longer supported.

I had to learn this the hard way: Install tool login did not work, no error message, always shows login form. Reason: \$_POST was always empty.

There are some Suhosin Patches available for 5.4, but it looks like Suhosin is no longer developed.

I would recommend to change the Suhosin check:

- if not installed: skip checks
- if installed:
 - apply current checks
 - check for PHP version and warn if ≥ 5.4
