

PMK News Twitter - Bug #46801

Empty Message if postField not changed

2013-03-30 12:55 - Benjamin Klatt

Status:	New	Start date:	2013-03-30
Priority:	Should have	Due date:	
Assignee:		% Done:	0%
Category:		Estimated time:	0.00 hour
Target version:			
Description			
<p>If neither the field configured to be posted nor title nor bodytext as fall backs, have been modified in the latest change of a news, an empty message, except of the link, would be submitted to twitter.</p> <p>An empty post is not very usefull for followers. To improve this behaviour, in case of an empty field, the extension should look up for the configured field in the reference previous version of the news.</p> <p>This can be done by changing the line</p> <pre>\$msg = htmlspecialchars_decode(strip_tags(\$dataArray[\$field]), ENT_QUOTES);</pre> <p>to</p> <pre>// check if a method is available. If not, get if from the reference if(isset(\$dataArray[\$field]) && \$dataArray[\$field] != ''){ \$msg = \$dataArray[\$field]; } else { \$msg = \$reference->checkValue_currentRecord[\$this->conf['postField']]; t3lib_div::devLog('Fallback: Post message from last version of the news: '.\$msg,\$this->extkey) ; } \$msg = htmlspecialchars_decode(strip_tags(\$msg), ENT_QUOTES);</pre>
