

TYPO3.Fluid - Bug #47078

widget.uri/linkViewHelpers fail with CSRF protection

2013-04-09 16:43 - Adrian Föder

Has patch:	No		

Description

the ViewHelper's getAjaxUri() method lacks the addition of a Csrf protection token, which results into an Access Denied exception when calling the linked action.

To me, the question is if the CsrfToken should be added in that case to the Ajax URI; or rather regard that in the \TYPO3\Flow\Security\RequestPattern\CsrfProtection.
