Assignee:		% Done:	100%
Category:	Configuration	Estimated time:	0.00 hour
Target version:	2.0	Has patch:	No
Sprint:		Complexity:	
PHP Version:			

Description

In <http://forge.typo3.org/projects/package-typo3-flow3/repository/revisions/5e5ebf31970c572b49fc73f87832f351248f899f> the setting TYPO3.Flow.persistence.doctrine.cacheImplementation was removed, however the schema still contains it as required option, hence configuration validation fails currently.

Revision 3b554c96 - 2013-04-30 12:38 - Alexander Berl

[TASK] Update configuration schemas

This change updates the configuration schemas to the latest merges.

On top, it allows for configuration of doctrine connection wrappers and the MasterSlaveConnection wrapper, that allows to setup a master/slave database connection.

Change-Id: I97e1554411d9a0b7e194dfa8c30a318260b70fb8
Resolves: #47346
Releases: master, 2.0

There's also a missing schema update for the log settings, following [#46053](#). Maybe this issue should be changed to a general schema update and contain a fix for the missing 'logger' setting option.

- Status changed from New to Under Review

Patch set 1 for branch **master** has been pushed to the review server. It is available at <https://review.typo3.org/20027>

#3 - 2013-04-18 18:42 - Alexander Berl

I pushed a change that not only solves the two inconsistencies, but at the same time opens up the persistence configuration to support doctrine

connection wrappers like the MasterSlaveConnect available in Doctrine.DBAL, which allows to use Doctrine with a master/slave replication setup. All that without one single line of code!

#4 - 2013-04-30 12:38 - Gerrit Code Review

Patch set 2 for branch **master** has been pushed to the review server.
It is available at <https://review.typo3.org/20027>
