

TYPO3.Fluid - Bug #48121

TextareaViewHelper is missing valid html5 argument placeholder ...

2013-05-12 23:00 - Helmut Hummel

Status:	Resolved	Start date:	2013-05-12
Priority:	Should have	Due date:	
Assignee:		% Done:	100%
Category:	ViewHelpers	Estimated time:	0.00 hour
Target version:	2.0		
Has patch:	Yes		
Description			
TextareaViewHelper is missing valid html5 argument placeholder ...			
Using			
<pre><f:form.textfield id="powermail_field_{field.marker}" placeholder="{field.title -> vh:string.RawAndRemoveXss()}" name="field[{field.uid}]" value="{vh:Misc.PrefillField(field: '{field}')}" class="powermail_field powermail_input {vh:Misc.ValidationClass(field: '{field}')} {vh:Misc.ErrorClass(field: '{field}', class: 'powermail_field_error')}" required="{field.mandatory}" /></pre>			
with the attribute placeholder causes the exception http://typo3.org/go/exception/v4/1237823695 , what means, that the argument placeholder is not allowed.

You should use the additionalAttributes attribute for things like that.

```
<f:form.textfield ... additionalAttributes="{ placeholder: field.title -> vh:string.RawAndRemoveXss() }" />
```

Right, this is a work around. But I agree that we should make common HTML5 attributes available in the form View Helpers for convenience

- % Done changed from 0 to 100

This is fixed. Just tested it today with current master.

#5 - 2013-06-05 12:06 - Adrian Förder

right Philipp, it's solved with l24bb73c5de5a494259171ff289d434892f85e16e on Jan 24; however I wonder why this issue is that "fresh", Helmut, is your inquiry based on an older state?
