Description Deprecate <ul style="list-style-type: none">• text_align• text_face• text_size• text_color• image• spaceBefore• spaceAfter• imagecaption	

History

#1 - 2014-09-24 12:08 - Felix Kopp

- Parent task set to #61836

#2 - 2014-09-24 12:20 - Felix Kopp

Feel free to decide if css_styled_content should be refactored at all. Strategy right now is to encapsulate old+broken field in CSS-Styled-Content and deliver alternative extension for Content Elements and rendering.

#3 - 2014-09-24 12:21 - Felix Kopp

- Parent task changed from #61836 to #61842

#4 - 2015-02-04 23:25 - Felix Kopp

- Parent task changed from #61842 to #61834

#5 - 2015-07-10 21:09 - Georg Ringer

gone already:

- text_align
- text_face
- text_size
- text_color

in compat6 ext:

- imagecaption

what you mean with "image"?

#6 - 2015-07-10 22:07 - Riccardo De Contardi

image is used to keep FAL reference, am I right?
I see an "image_frames" that I don't know if it is used...
