Description

The extension manager shows a list of extension, which can be updated. When I click on the update-icon for a single extension in the extension manager, the extension gets updated and a information-box is shown, that the extension has been updated.

The extension manager now still shows the update-icon for the desired extension, because the list of extensions does'nt get updated after the extension has been updated. You have to **manually reload** the extension manager to update the list of installed extension, so the update-icon disappears.

The list of extension should be updated automatically after an extension has been updated

Revision c52f7b53 - 2015-01-10 19:21 - Andreas Fernandez

[TASK] EM: Remove ExtJS

Replaces ExtJS dialogs with the new TYPO3 modals. Additionaly, all calls to TYPO3.l10n.localize() are replaced by accessing the TYPO3.lang array directly.
