

## TYPO3.Surf - Feature #52072

### Make Port in Varnish Tasks configurable

2013-09-17 14:15 - Michael Knoll

<b>Status:</b>	Accepted	<b>Start date:</b>	2013-09-17
<b>Priority:</b>	Won't have this time	<b>Due date:</b>	
<b>Assignee:</b>		<b>% Done:</b>	0%
<b>Category:</b>		<b>Estimated time:</b>	0.00 hour
<b>Target version:</b>			
<b>Description</b>			
<p>The Varnish ban and purge tasks have the port for Varnish management hardcoded. Since there might be different ports than 6082 for that, this should be configurable see patch below.</p>			
<pre>\$secretFile = (isset(\$options['secretFile']) ? \$options['secretFile'] : ''); \$purgeUrl = (isset(\$options['purgeUrl']) ? \$options['purgeUrl'] : "ban.url ."); \$varnishadm = (isset(\$options['varnishadm']) ? \$options['varnishadm'] : '/usr/bin/varnishadm'); \$varnishport = (isset(\$options['varnishport']) ? \$options['varnishport'] : '6082'); \$varnishport = '-T 127.0.0.1:' . \$varnishport; \$varnishsecret = (\$secretFile !== '' ? '-S ' . \$secretFile . ' ' : ''); \$this-&gt;shell-&gt;executeOrSimulate(\$varnishadm . \$varnishsecret . \$varnishport . ' ' . \$purgeUrl, \$node, \$deployment);</pre>			
<p>Btw: is there any possibility to do a pull request for the surf project, that would make fixes easier...</p>			

### History

#### #1 - 2016-01-17 17:10 - Helmut Hummel

- Tracker changed from Bug to Feature
- Status changed from New to Accepted
- Priority changed from Should have to Won't have this time

Development of TYPO3 Surf now moved to Github. If you think this is still relevant, please open a bug report or feature request here:

<https://github.com/TYPO3/Surf>

Btw: is there any possibility to do a pull request for the surf project, that would make fixes easier...

Yes, now there is :)

Looking forward to see your pull request there
