

TYPO3.Surf - Bug #52276

Task defined in an Application can't be removed for a deployment?

2013-09-25 18:20 - Thomas Allmer

Status:	Rejected	Start date:	2013-09-25
Priority:	Should have	Due date:	
Assignee:		% Done:	0%
Category:		Estimated time:	0.00 hour
Target version:			
Description			
<pre><?php \$workflow = new \TYPO3\Surf\Domain\Model\SimpleWorkflow(); \$deployment->setWorkflow(\$workflow); \$node = new \TYPO3\Surf\Domain\Model\Node('[...]'); \$node->setHostname('[...]'); \$node->setOption('username', '[...]'); \$node->setOption('password', '[...]'); \$application = new \TYPO3\Surf\Application\TYPO3\Neos(); \$application->setDeploymentPath('[...]'); \$application->setOption('repositoryUrl', '[...]'); \$application->setOption('composerCommandPath', ''); //why is this needed? \$application->setOption('packageMethod', 'git'); \$application->setOption('transferMethod', 'rsync'); \$application->setOption('updateMethod', NULL); \$application->setOption('keepReleases', 2); \$application->addNode(\$node); \$deployment->addApplication(\$application); // can't remove a task? \$deployment->getWorkflow()->removeTask('typo3.surf:typo3:neos:importsite'); ?></pre>			

History

#1 - 2013-09-25 18:25 - Thomas Allmer

ignore this

```
$application->setOption('composerCommandPath', ''); //why is this needed?
```

#2 - 2016-01-17 17:07 - Helmut Hummel

- Status changed from New to Rejected

Tasks can only be removed in the deployment callback.

See <https://github.com/TYPO3/Surf/blob/master/README.md#custom-tasks-in-deployment-configurations> for an example.

Development of TYPO3 Surf now moved to Github. If you think this is still relevant, please open a bug report or feature request here:
