Target version:				
PHP Version:			**Complexity:**	
Has patch:	Yes			

Description

The "required" flag for the options in source:/Classes/TYPO3/Flow/Validation/Validator/AbstractValidator.php does not work correct. If the flag is set to **FALSE**, the option is nevertheless **TRUE**.

Example (does not work):

```
protected $supportedOptions = array(
    'optionName'   => array('default, 'Description', 'mixed', FALSE)
);
```
