

## TYPO3 Flow Base Distribution - Bug #52938

### Resource stream wrapper doesn't work with foreign package

2013-10-18 10:31 - Lorenz Ulrich

<b>Status:</b>	New	<b>Start date:</b>	2013-10-18
<b>Priority:</b>	Should have	<b>Due date:</b>	
<b>Assignee:</b>		<b>% Done:</b>	0%
<b>Category:</b>		<b>Estimated time:</b>	0.00 hour
<b>Target version:</b>			
<b>Description</b>			
Using the resource stream wrapper (tested from Fluid) always generates links pointing to the origin package.			
Example: An inline CSS in the Fluid template of package <b>Acme.Test</b> :			
<code>background-image: url(resource://Acme.Demo/Public/Images/pdf.png);</code>			
This will generate the following output:			
<code>background-image: url(http://mydomain.tld/_Resources/Static/Packages/Acme.Test/Images/pdf.png);</code>			
instead of			
<code>background-image: url(http://mydomain.tld/_Resources/Static/Packages/Acme.Demo/Images/pdf.png);</code>
