Description

It is possible to assign single values from constants in setup like so:

```
lib.myextension.someconstantvalue = {$lib.myextension.someconstantvalue}
```

Usually there is more than one value that you want. For me this usually end up like that:

```
lib.myextension.constantvalues {  
  thisvalue = {$lib.myextension.thisvalue}  
  thatvalue = {$lib.myextension.thatvalue}  
  anothervalue = {$lib.myextension.anthoervalue}  
}
```

I'd like to be able to just say:

```
libmyectension.constantvalues < {$lib.myextension}
```

History

#1 - 2015-01-19 12:22 - Mathias Schreiber

- Target version set to 7 LTS

#2 - 2015-10-06 22:49 - Benni Mack

- Target version changed from 7 LTS to 8 LTS

#3 - 2017-02-23 14:50 - Riccardo De Contardi

- Target version changed from 8 LTS to 9.0

#4 - 2018-01-28 14:28 - Susanne Moog

- Target version deleted (9.0)

#5 - 2021-11-25 11:10 - Benni Mack

- Status changed from New to Rejected

Sorry, won't do this.
