

kb_imageedit - Bug #5495

Problem with DAM integration

2009-11-25 16:17 - Tymoteusz Motylewski

Status:	Resolved	Start date:	2009-11-25
Priority:	Should have	Due date:	
Assignee:	Franz Holzinger	% Done:	100%
Category:		Estimated time:	0.00 hour
Target version:			
Description			
In DAM filemodule imageedit is showing in the dropdown (context) menu, but after submitting the changed image the error is showing up: "Fatal Error This module "file_list" is not enabled in TBE_MODULES"

fix bug #5495

Revision 85160 - 2014-05-07 20:54 - Franz Holzinger

fix bug #5495

History

#1 - 2009-11-26 02:01 - Tymoteusz Motylewski

The problem is in the line number 1785 and 1793 in file index.php. There is a reference to file_list.php (fileadmin module which is disabled when DAM is installed)

#2 - 2010-05-05 18:32 - Dirk Eidam

- File 5495.diff added

I have solved the problem by saving the returnUrl in a new backend-user session. I don't know if this is the best solution but it works for me.

#3 - 2013-10-23 15:55 - Karsten Madsen

- File mysolution.txt added

My solution was like this: Se uploaded file.

#4 - 2014-05-07 20:58 - Franz Holzinger

- File neu.dff added

- Status changed from New to Resolved

- Assignee set to Franz Holzinger

- % Done changed from 0 to 100
