Description			
Hello Neos-Team,			
while our session we found out that neos:contentElement.editable returns an additional <div>-Tag in LIVE workspace.			
TYPO3\Neos\ViewHelpers\ContentElement\EditableViewHelper			
Set row 73-75 to:			
<pre>if (\$contentContext->getWorkspaceName() === 'live' !\$this->accessDecisionManager->hasAccessToResource('TYPO3_Neos_Backend_GeneralAccess')) { return \$content; }</pre>
