Description

In the PackageManager cache file is a validation of the actual file path to the file path the cache was last generated. This was written to invalidate the cache if someone moves TYPO3 around. This comparison fails on symlinks in path. As you need to clear the complete cache after moving the typo3 directory for other purposes and as this is no real use case, we can remove this line.

[BUGFIX] PackageManager no cache if TYPO3 dir has symlinks

In the PackageManager cache file is a validation of the actual file path to the file path the cache was last generated. This was written to invalidate the cache if someone moves TYPO3 around. This comparison fails on symlinks in path. As you need to clear the complete cache after moving the typo3 directory for other purposes and as this is no real use case, we can remove this line.
