Description	
Hello Core-Team, when I try to delete an installed extension in extension manager then a dialog appears with two buttons. But there is no label "yes" and "no". I have seen that you have renamed t3lib_l10n-folder to l10n in typo3temp/Cache/Data/. I have deleted this folder. But labels are still empty. Further I have removed this folder again and received all new languages from languageserver. Labels are still not there. So, this is not a Cache thing. It's a bug Stefan	
All extjs buttons are affected. The font-size is 0.

[BUGFIX] Make text of extjs buttons and IE<10 pagetree labels visible

The task #52497 introduced a regression. The font-size set in body is overridden in ext-all-notheme.css with font-size: 0px and thus needs to be reset again in xtheme-t3skin.css.

This is due to ext-all-notheme.css

```
.x-window-bc .x-window-footer {  
    font-size: 0;  
    line-height: 0;  
}
```

This was formerly overridden in /typo3/sysex/t3skin/extjs/xtheme-t3skin.css with

```
.x-btn button {  
    font-size: 11px;  
}
```

but removed in <https://review.typo3.org/#/c/24299/>

- File ie8-pagetree.PNG added

In Internet Explorer versions below 10 the labels of pages in the page tree are invisible.

This is due to

```
.ext-ie UL.x-tree-node-ct {  
    line-height: 0;  
    font-size: 0px;  
}
```

which was formerly overridden in /typo3/sysext/t3skin/extjs/xtheme-t3skin.css with

```
.x-tree-node {  
    color:#000;  
    font: normal 10px verdana, arial, tahoma, helvetica, sans-serif;  
}
```

but removed in <https://review.typo3.org/#/c/24299/>
