Description	
Hi	
I use the extbase plugin for indexed_search. Everything works but how can I configure to find results by searching word parts? It's only find results by full words

In the Form.html you will find

```
<f:form.hidden name="search[searchType]" value="{searchParams.searchType}" />
```

Change the value to 1 and you will get results with word parts. There is also a Typoscript setting...
